Notice Regarding the Policy to Change Market Segment to the Standard Market

Scala, Inc. (the "Company") hereby announces that at a meeting held on June 24, 2025, its Board of Directors resolved to apply to change its market segment on the Tokyo Stock Exchange from the Prime Market to the Standard Market.

The Company has striven to achieve sustainable growth and enhance corporate value through the optimal allocation of management resources and the strengthening of its governance structure.

Recently, as the effects of the business structural reforms from the previous fiscal year have begun to materialize, our corporate constitution has undergone a major transformation toward securing profitability. As we transition to a more robust corporate structure, and in consideration of our current business scale and the surrounding market conditions, we have determined that transitioning to the Standard Market will contribute to the medium- to long-term enhancement of our corporate value.

The Company plans to promptly proceed with the application for the change of market segment in accordance with the procedures prescribed by the Tokyo Stock Exchange.

This change in market segment does not alter the Scala Group's policy of pursuing sustainable growth and medium- to long-term enhancement of corporate value through initiatives such as strengthening corporate governance and implementing management focused on capital efficiency and stock price performance. We remain committed to enhancing our corporate value to meet the expectations of our shareholders and other stakeholders.

We will make a prompt announcement should any further developments require disclosure.
